Build a model train layout: Model railroad introduction with Michael Gross WGH

This video series, hosted by Michael Gross, will teach you the simple how-to workshop techniques you need to know to take an HO scale electric train set and make it a scenic model railroad. We'll show you how to build a 4x8 model train table (benchwork) from plywood, lay sections of track, create easy realistic scenery using foam and paint, assemble model buildings, and wire your layout with a DC power pack. When you're done, you'll have a railroad that operates well and looks real. Our techniques would work in N, O, S, G, or Z scale also. This video is scene 1, Introduction For more information and a free booklet with more tips visit greatesthobby.com. The World's Greatest Hobby program is a non-profit organization dedicated to promoting the fun, relaxing, and fascinating hobby of model railroading. Primary sponsors of our series are Atlas Model Railroad Co., Bachmann Trains, Kato Precision Railroad Models, Wm. K. Walther's Inc., and Kalmbach Publishing. Co, publisher of Model Railroader and Classic Toy Trains magazines. To contact the World's Greatest Hobby e-mail info@greatesthobby.com Visit our website at www.greatesthobby.com
